CEO / CxO Leadership Events

Highly customized insight,
extensive pre-event consultations,
a global track record, and detailed
industry experience!

→ Strategic Corporate Events → Setting the Tone

In the post-pandemic economy, CEO/CxO's are managing multiple priorities: business model disruption; the rapid emergence of new competitors; products that are almost out of date by the time they are brought to market; the digitization of everything; and the acceleration of industries; and more.

All of these trends require that organizations pick up the pace when it comes to their strategies, actions, and innovation efforts.

Many CEO/CxO's find it necessary to bring their teams together for a corporate offsite event in order to discuss, strategize and align to a faster, transformative future.

These global organizations have selected Jim Carroll to open or participate in such a meeting with an in-depth, customized leadership-oriented keynote that sets the tone from the start. They have selected Jim for his proven global track record of providing a keynote that is based on extensive consultation, customized research, and very detailed, specific insight.

→ Global Clients

Clients who have arranged for Jim at these sessions have included Disney, Chemours, Dupont, Rich Foods, NASA, Mercedes Benz, New York Life, Volvo, Siemens Energy, Nestle, Black & Veatch, Pfizer and many, many more.

Disruptive Trends Insight that Matters

"I have assisted hundreds of CEO/CxOs of global organizations deliver a message of transformation, innovation, and disruption at their global leadership meetings with highly customized, leadership-oriented keynotes"
Futurist Jim Carroll

→ Highly Customized

- NASA had him deliver (twice) a keynote on the 'future of space' in the context of space privatization and commercialization.
- The PGA of America had him provide his insight (twice) on the transformative trends that would provide for massive growth and innovation in the golf industry.
- Pfizer had him provide an internal leadership keynote on the transformation of healthcare through virtual and telemedicine, accelerated science and R&D, doctor and patient empowerment, medical device connectivity, and more – 6 months before the global pandemic.

→ Concise Insight

Jim Carroll will provide you with the detailed, extensively researched, highly customized disruptive trends and innovation insight that you need. He is known globally for his ability to provide concise, detailed insight for offsite CEO or CxO leadership events.

NASA

"On behalf of the entire Innovative Technology Partnerships Office, thank you for your engaging and thought-provoking presentation. From the feedback we have received, the event was a great success. Thank you for sharing your insight and expertise with us!"
